G. Rohith Reddy

Aspiring Data Engineer | B.Tech CSE (Artificial Intelligence)

Email: gundarohithreddy@gmail.com | LinkedIn | GitHub | Linktree

PROFESSIONAL SUMMARY

B.Tech CSE (AI) student at Marwadi University with a CGPA of 7.25 after four semesters, working toward a career in data engineering. Practising SQL and DuckDB through a data-jobs analysis project and currently learning Python. Interested in databases, data transformation and data pipelines.

EDUCATION

B.Tech, Computer Science and Engineering (Artificial Intelligence) 2024 – 2028 (expected)
Marwadi University, Rajkot | CGPA 7.25 after 4 semesters (SGPA 6.84, 7.00, 7.60, 7.52); currently in 5th semester

Intermediate (Class XII), Vamsi Junior College, Srikalahasti 2024 | 80.9%

Secondary School (Class X), Bhashyam High School, Srikalahasti 2022 | 86.8%

TECHNICAL SKILLS

Databases and data: SQL (joins, COUNT and MEDIAN aggregations, WHERE, HAVING, ORDER BY), DuckDB (practising)
Programming: Java, C, C++ (working knowledge); Python (learning)
Tools: Git, GitHub, Visual Studio Code
Basics: Linux, AWS cloud fundamentals, machine learning

PROJECTS

Data Jobs Analysis (SQL Data Engineering Projects) SQL, DuckDB, VS Code, Git/GitHub
github.com/RohithReddy17G/sql_data_engineering_projects

- Analysed Data Engineer job-market data with SQL in DuckDB to find the most in-demand skills, the top-paying roles and the most optimal skills by salary and demand.
- Combined data from multiple tables of a data warehouse schema using joins, with COUNT() and MEDIAN() aggregations and WHERE, HAVING and ORDER BY filtering and sorting.
- Documented the work with a README, a warehouse diagram and linked SQL query files.

Automated Sales ETL Pipeline SQL
github.com/RohithReddy17G/automated-sales-etl-pipeline

- Designed an ETL pipeline to ingest raw, messy e-commerce order and delivery records, apply SQL transformation logic and generate structured summaries of customer spending and order volume.

CERTIFICATIONS

Database Programming with SQL, Oracle Academy Nov 2025
Foundational Course on Applied Machine Learning and AI, Confederation of Indian Industry (CII) Sep 2026
AWS Academy Graduate: Cloud Foundations (20 hours), AWS Academy 2026
Java Fundamentals, Oracle Academy Apr 2026
Linux Essentials, Cisco Networking Academy Mar 2026
Python using AI Workshop, AI for Techies Aug 2025

ACHIEVEMENTS AND LEADERSHIP

- Hosted an Expert Show attended by 1,500 students, building communication and presentation skills.
